

# Collaboration LUX Energy Resources

**SAVE THE DATE**  
**30th August 2019**  
**SUVA**

**ATTENDANCE IS BY INVITE ONLY**

“Lux Energy Resources” is a green and renewable energy project developer that specializes in the deployment of Electromagnetic Energy Flux Reactor (EER) Technology as power generation. First of the kind in the world, the EER power generation uses electromagnetic energy as it's clean, green and renewable source, infinitely harvested from the environment.

This Talanoa has been organised by the PIDF on the request of the High Commission of Malaysia in Fiji with the objective of exploring business opportunities and collaboration with Lux, in the Pacific region.”

**Date:** 30th August 2019

**Venue:** Tanoa Plaza Hotel, Cnr Gordon and Malcom St. Suva

**Time:** 10am - 12pm
